IGSHPA/NATE Certified Installer Workshop

The three-day comprehensive Installation Workshops are designed for GSHP distributors, dealers, installers, HVAC contractors, trenching/drilling contractors, and HVAC professionals who desires a working knowledge of geothermal technology. Upon successful completion of the workshop and passing the IGSHPA/NATE installer's exam, IGSHPA/NATE accreditation as an installer of GSHP systems will be issued, which includes an installer's card and a certificate. Cost is \$995 per person, which includes all course materials, a three-year IGSHPA membership, and listing as an accredited installer on IGSHPA's website (once the exam has been passed).

DATES: August 24 -26, 2010
